Golden Retrievers – Judge Lesley Layland (Applecote)

What a lovely entry, I was particularly impressed with the Post Graduate and Open classes as there were some lovely dogs to go over. Movement played a roll in placing the dogs accordingly, on another day and another surface my places may well have been different.

Puppy 8 (2abs)

1st Skinner's Catcombe Cent By Cherubs

A very nice puppy that shows lots of promise. Pretty feminine head with lovely dark pigment, good length of neck into nice lay of shoulder with correct length of upper arm. Nicely boned, straight forelegs with good feet. Good depth of chest and short coupled body with good rear angulation and hocks well let down. Once settled into her stride she moved out well. Still very young but hope she grows on just a little to complete the picture. Delighted to award her BP.

Strong neck of good length with good shoulder assembly, forelegs straight placed on tight feet. Good depth of brisket and short loin with good rear angulation.
